

Canadian Anesthesiology Society: Archived Equipment  
Catalogued by: Stephanie Zaslov  
January-February 2021

**Collection:** Archived Equipment

**Object ID:** 1

**Object Name:** Wooden Box

**Dimensions:** 24.8 x 13.7 x 17 cm

**Materials:** Wood, Metal

**Manufacturer:** Unknown

**Date:** Unknown

**Provenance (if any):** Unknown

**Condition:** Lid is cracked, splitting lid into two pieces but held together well.

**Location:** RF080715506 (Box 1)

**Basic Description:** Small wooden box that appears to have once been a case for a mask/inhaler. Wooden box lid is attached and opens by hinge and has metal clasps to close.

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 2

**Object Name:** Pamphlet

**Dimensions:** 17.7 x 10.2 cm

**Materials:** Paper

**Manufacturer:** CAS to publishing company

**Date:** 1977

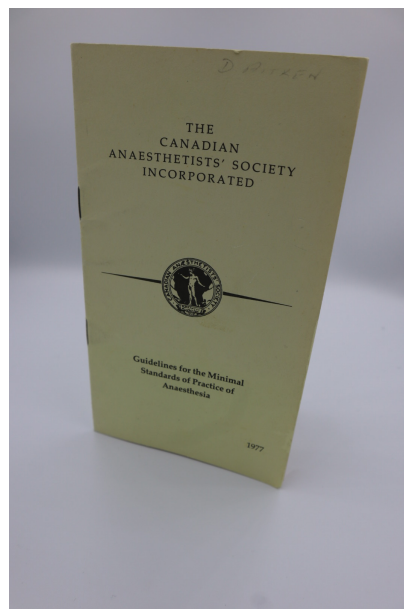

**Provenance (if any):** Unknown (CAS)

**Condition:** Good

**Location:** RF080715506 (Box 1)

**Basic Description:** Thick paper pamphlet of guidelines for the minimal standards of Anesthesia (1977)

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 3.1-10

**Object Name:** 10 Pamphlets of the Constitution and By-laws

**Dimensions:** 17.5 x 10.7 cm

**Materials:** Paper

**Manufacturer:** CAS to publishing company

**Date:** 1976

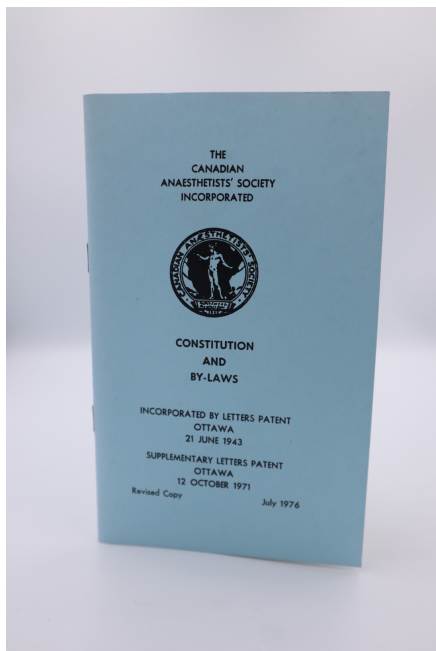

**Provenance (if any):** Unknown CAS

**Condition:** Good

**Location:** RF080715506 (Box 1)

**Basic Description:** Small blue thick paper pamphlets published in 1976 (gift from R. Mann published in 1976

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 4

**Object Name:** Oxygen Regulator Reducing Valve (Numbered 97 on old label)

**Dimensions:** 15.5 L x 12.8 H x 14.2 W cm (valve end to back of gages)

**Materials:** Metal, Synthetic

**Manufacturer:** Valve = Engineered Controls International Inc., Gauges = PUROX Linde Air Products

**Date:** 1940

**Provenance (if any):** Dr. H.M. Slater

**Condition:** Good, marks of age and use, N2O Dial missing its cover

**Location:** RF080715506 (Box 1)

**Basic Description:** Two gauges oxygen and nitrous oxide, one inserted into reducing valve to regulate oxygen pressure. Engraved “REGO TRADE MARK REG. U.S. PAT. OFF. “Made in USA” Embossed “TYPE XL/REGO 2” “1958” “G6121”

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 5

**Object Name:** Oxygen Regulator Reducing Valve (Numbered 98 on old label)

**Dimensions:** 16.5 x v 12.5 H x 14 W cm

**Materials:** Metal, Synthetic

**Manufacturer:** Same as 97

**Date:** 1940

**Provenance (if any):** Dr. H.M. Slater

**Condition:** Good

**Location:** RF080715506 (Box 1)

**Basic Description:** Same as 97, but marked with SLATER

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 6

**Object Name:** Oxygen Regulator Reducing Valve (Numbered 99 on old label)

**Dimensions:** 14 L x 13.2 H x 14.5 W cm

**Materials:** Metal, Synthetic

**Manufacturer:** Same as 97

**Date:** 1940

**Provenance (if any):** Dr. H.M. Slater, Full provenance unknown

**Condition:** Good

**Location:** RF080715506 (Box 1)

**Basic Description:** Same as 97, but there is a small swastika engraved on main valve part underneath gauges. Further research efforts uncovered that the Linde Air Products company was a German Nazi owned company. Linde Air products were used by, and for the Germans in WWII era. Some Linde Air products operations were run through concentration camps, while Linde also partnered with IG Farben, manufacturers of Zyklon-B gas. After WWII, Linde sought to remove all swastikas from their products by stamping over them with a square; however, this product was never stamped. Provenance as to how the main valve got here are unknown.

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 7 (73 on old label)

**Object Name:** Face Mask

**Dimensions:** 12 x 8.5 cm

**Materials:** Rubber, Synthetic, Metal

**Manufacturer:** MIE

**Date:** Unknown

**Provenance (if any):**

**Condition:** Good, worn

**Location:** RF080715506 (Box 1)

**Basic Description:** Anti-Static Rubber Face mask, black and yellow rubber, Everseal? MIE Face mask with metal mount

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 8 (113 on old label)

**Object Name:** Face Mask

**Dimensions:** 10 x 6 x 9 cm

**Materials:** Plastic, Synthetic

**Manufacturer:** Hundson Oxygen Therapy Sales Company

**Date:** Unknown

**Provenance (if any):** Unknown

**Condition:** Worn

**Location:** RF080715506 (Box 1)

**Basic Description:** Mask made with synthetic materials moulded with opening for connectors to breathing system

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 9 (81 on old label)

**Object Name:** Face Mask

**Dimensions:** 6.5 x 7.5 x 2.5

**Materials:** Black rubber, metal

**Manufacturer:** Unknown

**Date:** Unknown

**Provenance (if any):** Unknown

**Condition:** Rubber has hardened, no longer flexible

**Location:** RF080715506 (Box 1)

**Basic Description:** Mask, black rubber with metal ring around opening for connector

**Photos:**

**Collection:** Archived Equipment

**Object ID:** Face Mask

**Object Name:** 10 (112 on old label)

**Dimensions:** 11.6 x 9 x 7.5 cm

**Materials:** Synthetic (plastic), metal, textile

**Manufacturer:** Unknown

**Date:** 1950

**Provenance (if any):** Unknown

**Condition:** Good, worn from age and use

**Location:** RF080715506 (Box 1)

**Basic Description:** Mask is made of plastic with two openings , 1 is screened, 1 open and headstrap

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 11

**Object Name:** Heidbrink Division Vaporizer (Canister)

**Dimensions:** 11.9 x 6.2 cm (top 8.3 x 3.9 cm)

**Materials:** Metal, Glass

**Manufacturer:** Heidbrink

**Date:** Unknown

**Provenance (if any):**

**Condition:** Scratched from use, otherwise good

**Location:** RF080715506 (Box 1)

**Basic Description:** Part of Anaesthesia Machine , Brown glass with metal valve piece on top with connecting metal tubes

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 12

**Object Name:** Mouth Gag (may be labelled forceps, 141 on old label)

**Dimensions:** 10.5 x 7.5 (top) x 5.5 (bottom) cm

**Materials:** Metal, synthetic

**Manufacturer:** HEKA, Germany

**Date:** Unknown

**Provenance (if any):** Engraved with MAC

**Condition:** Good, worn from age and use

**Location:** RF080715506 (Box 1)

**Basic Description:** Mouth gag. Engraved by use “MAC // MAC” Engraved by maker “Stainless // Germany / HEKA”

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 13

**Object Name:** Direct Bronchoscope

**Dimensions:** 41 x 1.5 cm (body) 8.5 cm x 1.5 (handle) 5 cm (protruding end next to handle)  
44.6 x 13.6 cm (box)

**Materials:** Cardboard, Metal, Glass, Textile

**Manufacturer:** George P. Pilling & Son Company, Philadelphia, Pennsylvania, USA

**Date:** Unknown

**Provenance (if any):** From Dr. H.M. Slater?

**Condition:** Good

**Location:** 138681067 Archived Equipment Box 12

**Basic Description:** Metal Pilling-Phila bronchoscope in pale blue box (made in USA) 9  
40Cased; includes a spare lamp in an envelope

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 14

**Object Name:** Direct Bronchoscope

**Dimensions:** 44.5 x 2 (body) 8.5 x 1.5 cm (handle) 5cm (protruding end next to handle) (Box)  
49.6 x 12.2 cm

**Materials:** Cardboard, Metal, Glass, Textile

**Manufacturer:** J.F. Hartz Co. Germany (bronchoscope), George P. Pilling & Son Co. Philadelphia, USA (Case)

**Date:** Unknown

**Provenance (if any):** Unknown

**Condition:** Good, box in worn condition

**Location:** 138681067 Archived Equipment Box 12

**Basic Description:** Bronchoscope, Fitted card case, fabric lined, labelled on outer lid. Handwritten "BRONCHOSCOPE 7-40" on side of lid. Contains bronchoscope size 7-40.

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 15

**Object Name:** Trilite Inhaler

**Dimensions:** 18 x 2.4 cm (instrument) 21.2 x 2.5 cm (box)

**Materials:** Metal, paper/cardboard

**Manufacturer:** Trilite [illeg.] Ltd., Made in England

**Date:** 1947

**Provenance (if any):** Unknown

**Condition:** Scratched from movement/use, box has been taped to keep together

**Location:** RF080715506 (Box 1)

**Basic Description:** Trilite inhaler; metal rod-shaped which unscrews to fill with trilene and to add a mask; contains a wick inside to absorb anaesthetic agent; top unscrews to reveal inhaler openings. Engraved "Trilite Inhaler // PAT NO 58817 // MADE IN ENGLAND // OTHER PATENTS PENDING, "TO UNSCREW" Box Printed: The TRILITE INHALER // distributors //Trilite (OVERSEAS) LTD., 184 HORNING ST, BURTON-ON-TRENT.

The Trilite for self-administration for pain control for war casualties, used in obstetrics, minor surgery, after production in 1947

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 16

**Object Name:** Blue Emblem Seal Stamp

**Dimensions:**

**Materials:** Metal, synthetic (plastic)

**Manufacturer:** Mack Marking Devices

**Date:** Unknown

**Provenance (if any):** CAS

**Condition:** Excellent

**Location:** RF080715508 (Box 3)

**Basic Description:** Blue emblem stamper, brand- Crown- Made in Canada (Mack Marking Devices) Plastic and metal

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 17

**Object Name:** Burgundy Emblem Stamper

**Dimensions:** 13.8 x 7.6 x 5.8 cm

**Materials:** Metal, synthetic (plastic)

**Manufacturer:**

**Date:** Unknown

**Provenance (if any):** CAS

**Condition:** Excellent

**Location:** RF080715507 (box 2)

**Basic Description:** 12th world congress engraved emblem stamper, sticker on bottom front with 41RR - #2805 printed on it, plastic and metal

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 18

**Object Name:** Metal Emblem Seal Stamper (Embossing)

**Dimensions:** 15 x 5.4 cm (bottom) full height is 25.2 cm, widest point of body is 12.6 cm curves inwards to 4 cm

**Materials:** Metal

**Manufacturer:** Unknown

**Date:** 1943

**Provenance (if any):** CAS

**Condition:** Good, working, needs cleaning

**Location:** RF080715507 (box 2)

**Basic Description:** Metal stamper with larger lever, company/origin sticker has been scratched off. Seal. Cast metal with hinged polished handle that drives spring mechanism to close two circular plates; upper is engraved, lower is embossed

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 19.1-2

**Object Name:** Gavel and Case

**Dimensions:** 15 x 5.4 cm (bottom) full height is 25.2 cm, widest point of body is 12.6 cm curves inwards to 4 cm

**Materials:** Wood - brown, Metal (silver), Textile- black and green

**Manufacturer:** Unknown

**Date:** Before 1922

**Provenance (if any):** CAS

**Condition:** Gavel is good, tarnished silver , box is fragile and coming apart at edges

**Location:** RF080715508 (Box 3)

**Basic Description:** Gavel consists of turned wood handle set into turned wood head banded at each end in silver. One end covered with engraved plated; centre banded with engraved plate listing names of presidents . Wood case covered in leatherette, lined, tilted with support for handle of the gavel. Engraved: Presented to the Canadian Society of Anesthetists by the first President Samuel Johnston M.A. M.D. 1922..." along with various other members of society/ presenters

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 20

**Object Name:** Emotril Trichloroethylene Analgesia Apparatus (old label 23)

**Dimensions:** Case: 28 x 21.2 x 18.6 cm (object cannot be removed from case, measurements not taken)

**Materials:** Metal, glass rubber, synthetic, leather handle

**Manufacturer:** Designed by Dr. Hans George Epstein, distributed by medical and industrial equipment ltd. London, England

**Date:** Circa 1940

**Provenance (if any):** Dr. H.M. Slater

**Condition:** Good

**Location:** RF080715507 (box 2)

**Basic Description:** Metal case with apparatus inside. Metal, glass, plastic, rubber. Metal canister with valve and several gages, all connecting via rubber tube to an inhalation mask. Designed by Dr. Hans George Epstein, distributed by medical and industrial equipment ltd. London, England

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 21.1-2

**Object Name:** Ombrédanne Vaporizer/Inhaler (20.a-b old label)

**Dimensions:** Case: 20.6 x 24 x 14 cm Object: 25 cm from longest point, 17 cm width of sphere, 12.6 cm width of handle above mask, 7.8 cm width of mask. (vaporizer can only fit in case when mask is removed )

**Materials:** Wood, metal (nickel-plated)

**Manufacturer:** Collin

**Date:** 1885-1895, France

**Provenance (if any):** Unknown

**Condition:** Good

**Location:** RF080715507 (box 2)

**Basic Description:** Wooden box/case for metal inhaler/vaporizer - Spherical shaped canister with opening as well as opening for attached face mask/inhaler. Measurements engraved on side as well as Collin déposé No. 16020

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 22

**Object Name:** Infant Absorber

**Dimensions:** Tube/cannister diameter is 5 cm, full length of instrument is 20 cm, diameter of mask connector is 6 cm

**Materials:** Glass, metal, synthetic, soda-lime (white stones inside)

**Manufacturer:** Foregger

**Date:** 1958-65

**Provenance (if any):**

**Condition:** Good, yellowing of synthetic, metal has been scratched

**Location:** RF080715508 (Box 3)

**Basic Description:** Glass tube filled with soda-lime, metal connecting piece at bottom of soda-lime filled tube, top metal piece of tube connects to what could be a mask or connecting piece to mask flow, older, unknown origin and year (Foregger) 1958-65, part of infant circle absorber

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 23

**Object Name:** To and Fro Infant Absorber

**Dimensions:** Diameter of cannister is 5.5 cm, full length of object is 22.7 cm, perpendicular tube is 19 cm in length and 2.3 cm in diameter, knob diameter is 4 cm

**Materials:** Metal, glass, synthetic, soda lime

**Manufacturer:** designed by Kentaro Taakaoka

**Date:** 1970-80

**Provenance (if any):** Donated by F.G. Ruston

**Condition:** Good, taped over with yellow paper label

**Location:** RF080715508 (Box 3)

**Basic Description:** Glass Canister filled with soda-lime, blue coated metal tubes on either side of canister, top metal piece is an attached perpendicular tube to canister with orange rings on the right side and green on the left, a circular knob is attached the this tube that reads open or closed with an arrow pointing in open and closed directions, Between 1970-80, probably designed by Kentaro Taakaoka, donated to CAS by F.G. Ruston

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 24.1-2

**Object Name:** Silver Plate and Red plate case

**Dimensions:** 30 cm diameter, 94.24 cm circumference, stand is 14 cm long and 10.1 cm high, case: 35 x 35 x 3.3 cm

**Materials:** Metal-Silver, textile, synthetic

**Manufacturer:** Unknown

**Date:** 1997

**Provenance (if any):** Association of Anaesthetists of Great Britain and Ireland to the Canadian Anaesthetists' society in Vancouver

**Condition:** Good, silver is tarnished with many fingerprints on the back

**Location:** 138681067 Archived Equipment Box 12

**Basic Description:** Scalloped edge silver dish with emblem and engraving of presentation from the Association of Anaesthetists of Great Britain and Ireland to the Canadian Anaesthetists' society in Vancouver, silver is tarnished a little, presented in June 1997, case is textured red imitation leather with a gold border

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 25.1-2

**Object Name:** Stratford-Cookson Somnoform Inhaler and case

**Dimensions:** 18.5 x 5 cm for tube portion, funnel portion is 14 cm long and 10 cm in diameter, Case is 26.5 cm x 22cm

**Materials:** Metal, synthetic, textile

**Manufacturer:** Stratford-Cookson Company in Pennsylvania, USA

**Date:** Likely made in 1910

**Provenance (if any):** Unknown

**Condition:** Inhaler in good condition, only half of case is left and in very poor condition, sides of case are falling apart

**Location:** RF080715508 (Box 3)

**Basic Description:** Plated metal device which consists of a side chamber covered with a fiction fitted cup to hold capsule of the somniform mixture; a gauge cup covered in metal glaze to which a rubber bag (not present) would be fitted; main chamber leads to valve for air and anesthetic to which the face-piece is attached (not present)

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 26

**Object Name:** McKesson Absorber Model 625

**Dimensions:** Top portion (dial section) is 22.5 cm long, 17.8 cm wide, 6 cm tube with hexagonal shape 4 cm in diameter, smaller tube is 4cm long, 3.8 cm in diameter, each bottom canister is about 12 cm long and 10 cm in diameter

**Materials:** Metal, glass

**Manufacturer:**

**Date:** Unknown

**Provenance (if any):** Unknown

**Condition:** Good

**Location:** RF080715509 (Box 4)

**Basic Description:** Heavy metal object. 2 glass circular viewing areas, 4 dials all the same diameter that measure absorption range, canister usage, and to turn off and on, there are two large canisters underneath the dial portions, each canister's absorption is controlled by a dial. May have soda-lime inside or other stones. 464-71 is written on top of this object

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 27.1-6

**Object Name:** Brass Jug/decanter and goblet set

**Dimensions:** Jug is 28 cm high, including rooster lid, spout is about 12 cm and angles outwards about 30 degrees, bottom is about 7.8 cm in diameter, goblets are 8.3 cm high bottom is 4.6 cm diameter and top is 5.3 cm in diameter

**Materials:** Metal-yellow and grey

**Manufacturer:** Unknown

**Date:** Unknown

**Provenance (if any):** Unknown

**Condition:** Good, a bit tarnished

**Location:** RF080715508 (Box 3)

**Basic Description:** Cast metal jug with rooster shaped lid and pouring spout matching footed cups; moulded or embossed design on outer surface; gilded interiors

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 29

**Object Name:** Silver Dish

**Dimensions:** 19.8 cm in diameter

**Materials:** Silver

**Manufacturer:** RC

**Date:** 1966

**Provenance (if any):** Gifted from the Association of Anaesthetists of Great Britain and Ireland to the Canadian Anaesthetists Society in 1993. Gift was given for 50th anniversary.

**Condition:** Tarnished

**Location:** RF080715508 (Box 3)

**Basic Description:** Silver dish, round with broad raised rim decorated with two incised lines, commemorative words engraved in centre. Upper rim decorations include Lion, leopard's head and date letter.

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 30

**Object Name:** Metal Dish

**Dimensions:** 30.6 cm in diameter

**Materials:** Metal- yellow/copper and silver

**Manufacturer:** Unknown

**Date:** Unknown

**Provenance (if any):** Unknown

**Condition:** Good, a bit tarnished or rusted.

**Location:** RF080715509 (Box 4)

**Basic Description:** Larger silver and copper dish decorated (metal embossed) with an Indian or middle eastern landscape and woman as its focal point and two men underneath her. A palace or mosque is depicted in the background. Border is decorated with birds and florals

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 31

**Object Name:** Ether Vaporizer

**Dimensions:** From tube end to other tube end, it is approx. 17.7 cm, glass jar diameter 6 cm, dial diameter is approx. 6.5 cm

**Materials:** Metal, glass

**Manufacturer:** McKesson Appliance Co. Toledo, Ohio, USA

**Date:** 1935-45

**Provenance (if any):** Unknown

**Condition:** Good

**Location:** RF080715509 (Box 4)

**Basic Description:** Ether vaporizer model 965. Brown glass canister topped with a metal piece with metal connecting tubes on either side. The top of the piece has a dial that reads the company name, where it was manufactured, notches with numbers to measure and off and on notches

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 32

**Object Name:** Soda Lime apparatus 4/64??

**Dimensions:** From bottom of canister to highest point of object (top handle) 26 cm, diameter of bottom of canister is 11 cm

**Materials:** Metal, glass, Soda lime stones

**Manufacturer:** Heidbrink, USA

**Date:** 1950s

**Provenance (if any):** Unknown

**Condition:** Good, worn and has aged medical tape with label written on top.

**Location:** RF080715509 (Box 4)

**Basic Description:** Heidbrink, made in USA. Tape on side that is labelled with Soda Lime APR 4/64. Appears to be a larger metal canister filled with soda lime, dials and tubes, nozzles for inflation, and air flow. Back nozzle has number 8989 embossed.

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 33

**Object Name:** Canadian Society of Anaesthetists Frame

**Dimensions:** 24.5 x 16.8 x 2 cm

**Materials:** Natural fibres (paper)-white, yellow, peach, dark blue, light blue, synthetic, metal-gold, glass-clear

**Manufacturer:** Emblem Artist- A. Sherriff Scott, R.C.A. Frame-floor Yonge Creative Framing

**Date:** November, 1982

**Provenance (if any):**

**Condition:** Excellent

**Location:** RF080715510 (Box 5)

**Basic Description:** Gold framed emblem with a depiction of Hypnos and description underneath. Emblem was created in 1920. Wire suspension on back for hanging.

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 34

**Object Name:** Royal College Accreditation Plaque 2016

**Dimensions:** 27 x 20.5 x 2 cm

**Materials:** Wood-coated black, synthetic-black coating, metal-silver and black, textile-black (on back)

**Manufacturer:** Unknown

**Date:** 2016

**Provenance (if any):** Gifted from the Royal College of Physicians and Surgeons of Canada to the CAS in 2016

**Condition:** Excellent

**Location:** RF080715510 (Box 5)

**Basic Description:** Black wooden and metal plaque gifted from the Royal College of Physicians and Surgeons of Canada to the CAS in 2016 for Improving Education delivery and Optimizing Credit: the Framework for CBD for CPD.

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 35

**Object Name:** Royal College Accreditation Plaque 2011

**Dimensions:** 23.3 x 18 x 2 cm

**Materials:** Wood-coated black, synthetic-black coating, metal-silver and black, textile-black (on back)

**Manufacturer:** Unknown

**Date:** 2011

**Provenance (if any):** Gifted from the Royal College of Physicians and Surgeons of Canada to the CAS in 2011

**Condition:** Excellent

**Location:** RF080715510 (Box 5)

**Basic Description:** Black framed plaque from the royal college of physicians and surgeons of Canada, presented to the CAS for CAS Tracker, black wood, metal, back is coated with black felt or velvet-like material

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 36

**Object Name:** Royal Australian College of Surgeons Coat of Arms Plaque

**Dimensions:** 18 x 15 x 2 cm

**Materials:** Wood-brown, Metal-polychrome

**Manufacturer:** Novocastrian Enterprises

**Date:** 1985

**Provenance (if any):** Presented by Dr. Robin Smallwood to the A.C.U.D.A. on June 8th, 1985 at the Annual Meeting Toronto Dinner

**Condition:** Excellent

**Location:** RF080715510 (Box 5)

**Basic Description:** Wooden Plaque Bearing the coat of arms of the Royal Australian College of Surgeons on a raised shield and ribbon; its motto reads "fax mantis incendium gloriae"

**Photos:**

**Collection:** Archived Equipment

**Object ID:** 37

**Object Name:** Association of Anaesthetists of Great Britain & Ireland Coat of Arms Plaque

**Dimensions:** 18 x 15.2 x 2.5 cm

**Materials:** Wood-brown, painted-polychrome and gold

**Manufacturer:** Unknown

**Date:** Unknown

**Provenance (if any):** Gifted from the Association of Anaesthetists of Great Britain & Ireland to CAS

**Condition:** Excellent

**Location:** RF080715510 (Box 5)

**Basic Description:** Wooden plaque bearing the coat of arms of the Association of Anaesthetists of Great Britain and Ireland painted on a raised shield and ribbon; and its motto "IN SOMNO SECURITAS."

**Photos:**

**Collection:** Archived Equipment
